

Attachment B – Performance Standard

Bidder - _____ Base or Alternate _____

Display Location _____

Overall Active Display Size (Measured from physical pixel to physical pixel: not including cabinet)

Vertical _____ ft. Pixels _____

Horizontal _____ ft. Pixels _____

OEM LED Module Manufacturer _____

LED Lamp Die and Package Make and Model: _____

Processor Manufacturer: _____

Physical Display Size (including cabinet):

Vertical: _____ ft.

Horizontal: _____ ft.

Physical Pixel Pitch (not lines): Vertical/Vertical: _____ millimeters

Horizontal/Horizontal: _____ millimeters

Physical Pixel Density (not lines) _____ pixels/sq. ft

3 in 1 SMD LED or discrete lamp make and model _____

Brightness _____ nits

Brightness level adjustment: _____

Graduation Method: _____

Tonal Gradation: _____

Color Temperature k _____

Color Temperature adjustability _____

Power Consumption –

Average (entire display) _____

Maximum (entire display) _____

Normal power requirements (voltage, service, O) include any ventilation (no air condition allowed) requirements for entire display: _____

Entire Display Assembly: (total center hung weight including displays, internal structure, signage and equipment by others, and safety factor) Note: Center hung CANNOT exceed over 30,000lbs.
